

the Chilli Pickle

**Choosing the right drinks selection is no easy process and particularly when it needs to stand up to the complexities of Indian food.
We hope you like our choices.**

WINE

There is still a deep-rooted aversion to the idea that curry goes with wine but this couldn't be further from the truth. The high levels of fruit and natural acidity work perfectly with our complex spicing.

We have split our wine list up by style to help you to navigate your way around. The section we are most fond of is the tropical and floral whites section which contains the most aromatic wines on our list.

These wines burst into life when matched with our equally aromatic dishes. On the red front we love the Barry Bros Shiraz/Cabernet from Australia with our Kashmiri lamb cutlets but feel free to ask your server for their favourites too. They have all enjoyed our regular wine tastings.

BEER

When a cold beer is the order of the day we have a diverse selection of beers. You will see that Alun's time spent in Bavaria wasn't wasted, but nobody can deny an IPA paired with Indian Food is something to be cherished.
